LaPearl Y.P.S. Give Lawn Social

Under the auspices of the LaPearl Young Peoples Society, a Lawn Social was held at the church on the evening of June 9th.

Although we were threatened by a storm in the early part of the evening the weather cleared up and the evening was beautiful.

Quite a large crowd attended and everybody reports having had a good time.

The early part of the evening was devoted to playing games on the lawn; Charles Clifford and M. Moncrieff were in charge of same.

A booth was erected, Miss Moncrieff and Misses Edna and Willa Morrison being in attendance. The lawn was beautifully lighted by colored lanterns strung on wires.

After the games everybody repaired to the church where lunch was served under the superintendance of Miss Francis Morrison who was dressed to represent Canada, and Miss Elizabeth Morrison dressed to represent A Gipsy Queen.

Thirty-eight dollars were taken in, but of which expenses are to be paid.

We were very sorry Mr. Mitchelson was not able to be present, but we hope to have him amongst us soon again.

The Young People wish to thank all those who so kindly assisted them.

Mr. James Swan Prosperity Pioneer Dies At Winnipeg

One of the first Prosperity Pioneers has passed away.

James Swan, late of "The Grove" Chauvin, Alberta, passed away on June 4th at 79 Donald St. Winnipeg.

He along with Mr. A. Ferguson and Mr. W. O. Harris were the first people in the Prosperity District.

He suffered much during the last six months from that most terrible malady, cancer. His two sons Jeff and Billy, were sent for and arrived just a few hours before he passed away. The funeral took place on Tuesday last, at Springfield, Manitoba.

His wife, four grown sons and two small daughters are left to mourn his loss.

G. G. Sunday Set For June 19th

It is hoped that the 3 local branches of the S.G.G.A. (Brady, Marsden and Fram) will hold a United Service in Brady Schoolhouse on the above date. A special programme is being arranged and Mr. J. Park will conduct the service. This date has been set apart by the Provincial Executive throughout Saskatchewan as Association Sunday. All Grain Growers should make a point of being present at this service at Brady School June 19th at 3.30 p.m.

"Do it now" is a pretty good rule and one that should not be forgotten in Gopher Poisoning. One gopher killed now will save a lot of trouble later.

Strychnine, Gophericide, Kill-Em-Quick, Micklesons, My Own and Eveready always in stock.

The Chauvin Pharmacy

Notes From North East

Don't forget the United Gathering of Grain Growers at Brady school on Sunday June 19th at 3.30 p.m. A special programme is being prepared and a good time is assured. Come and bring your friends along..

Also Patriotic Sunday June 26th is being featured by a special program of music and recitations by the Sunday scholars. Mr. Park has charge of arrangements for both occasions.

Mr. Gray has kindly consented to allow the use of his large granary in Artland for services on every alternate Sunday evening.

The new telephone book should soon be in the hands of subscribers, and will save endless worry.

Mr. and Mrs. P. Powers and Mr. and Mrs. Gus Scholin have both been visited by Mr. Stork and a son left in each case. Congratulations.

Election passed off quietly. No big "bust ups".

Mr. A. W. Wright is the busy man these days. A census job is no cinch is it Billy?

Fram Grain Growers Association

The usual monthly meeting of the above Association was held in the schoolhouse on Saturday, June 4th. There was a splendid attendance of members and much important business was done. The minutes of the previous meeting were passed as read on the motion of Mr. Pritchard—Mr. Swanstrom. It was resolved that the Secretary, (Mr. K. W. Coe) act for the local in the matter of binder twine (Continued on page six)

Basket Ball

On Monday evening the H.S. boys clashed with the Teachers in one of the hardest fought games of the season. There was action and reaction from the first blow of the whistle. The game was practically scoreless until the last few minutes when the boys pushed in a goal, winning 3-3.

On Wednesday evening the H.S. Girls defeated Airlie by a score of 20-8.

On Friday evening the Town team met the Teachers' team, winning out by a score of 16-2.

Standing of League.

	Won	Lost	Points
H.S. Girls	5	0	81
H.S. Boys	3	1	49
Chauvin	2	3	49
Airlie	1	4	41
Teachers	1	4	25

Alberta Dragoons

The 19th Alberta Dragoons are being measured for their uniforms.

A Q.M.S. has been appointed and the whole outfit of clothing, saddles, bridles, spurs etc. will be down at an early date.

All Dragoons who have not been measured for their uniforms should see trooper W. Cubitt.

Plowing, Plowsetting Edgerton A. G. Holds A Demonstration On

On June 10th splendid gathering attended the demonstration given on plowing on the Challenger farm Edgerton.

Mr. F. F. Parkinson who is an expert in this line, who is called to Vermilion on the 16th June to judge the very interesting and beneficial instructions on methods for the improvement of plowing. And the public at large are greatly indebted to Mr. Parkinson for the splendid, and untiring efforts and interest he is displaying for the success of the coming plowing match to take place at Edgerton on June 17th. The directors in charge of the plowing match, are particularly optimistic regarding the success of the match. And they believe there is nothing on the farm to equal in value, good plowing. The directors have been very fortunate in securing the service of Mr. Donald Douglas, Director of the Government demonstration farms.

Mr. Galbraith, Superintendent of fairs will also be present, and will address the gathering at the plowing match.

Local Notes Of Interest

The Rev. Mitchelson will preach the U.F.A. sermon at Ribstone on Sunday June 19th at 7.30. He will also be at the LaPearl field that day.

A dance was attempted in the I.O.O.F. hall on Wednesday evening but was not pronounced a success, due to the humidity of the atmosphere. It was sure warm.

Everybody's thoughts are turned Salt Lake-wards. The bathing season has commenced and the water's fine.

J. MacKenzie, accompanied by his trusty mechanic, Chas Murray, made a trip to Edmonton and back in his car. J. J. reports the roads in good shape especially after leaving Viking.

Mrs. R. Beatty left on Monday for Unity hospital to undergo an operation.

Mr. and Mrs. Bob Cameron celebrated their wedding anniversary on June 6th. Mr. and Mrs. Fitch were amongst the guests present.

Mr. S. J. Folkins of Vancouver is visiting his brother Dr. H. G. Folkins.

On Thursday, June 16th at the Sacred Heart Church seventeen boys and fifteen girls made their first communion; Father Huet officiating.

Miss M. Cargill, who has been spending the last two weeks with Mrs. Dundas at Wainwright, returned to Chauvin, on Saturday.

Messrs Wiley and Prokosch were elected to represent the Sulphur U.F.A. at the Annual Political Convention to be held at Wainwright in July.

The regular meeting of the Ladies Aid will be held in the Hall Ribstone Saturday, June 16th.

Joseph Jorgensen is the Edgerton agent for the Edmonton City Dairy.

Wedding Bells

Brewer—Willson

At Chauvin Alta June 8th by Rev. Millar, Marguerite C. of Melbourne, Australia (widow of L. J. Willson) to Francis B. Brewer of Henbury, Glos. England. Miss Winnifred Royce acted as brides-maid and Mr. and Mrs. M. J. Royce signed the register.

Cleland—Clifford

A quiet but pretty wedding took place June 2nd at the home of Mrs. Robert Clifford, Cresthill, when her daughter Myrtle Militta was united in marriage to Alex Cleland of Prince George, B.C. The bride was very tastefully attired in a dress of Mary blue silk beautifully beaded. The bride was attended by Miss Elizabeth Morrison who also wore Mary blue silk, while the groom was supported by Roland Clifford brother of the bride. Elder Beckley of the L.D.S. church, Ribstone officiated. Owing to the recent illness of the bride's mother, the wedding was very quiet, only the immediate relatives being present.

The happy couple left on the early morning train June 3rd for Saskatoon and points East. On their return they intend making their home at Prince George, B.C.

The bride has many friends in and around Ribstone who wish her much happiness in her married life.

Chauvin Athletic Association Meeting

A meeting of the executive committee of the Chauvin Athletic Association met in the office of M. Gifford on Monday evening for the purpose of drawing up programs etc. for the coming sports on July 6th.

Are you going to the big bucking Contest? You bet I am.

See Ad. on back page

Chauvin Rifle Club

A meeting of all members of the association was called for Wednesday June 8th for the purpose of putting the range in shape, the work included brush-cutting, fence posts cut and a trench 8 ft deep, 20 ft long and 4 ft wide, firing steps built up and targets placed in position, and the entire butt fenced in. Eight members attended the meeting and considering the number made a very good showing, getting a good 4 ft down in the markers shelter. Following are the names of the members who turned out: E. A. Pitman, J. McCarron, Bert Johnston, with teams and scrapers; the shovel gang consisted of J. MacKenzie, L. D'Albertanson, Jr. W. Cubitt; H. Foxwell and F. Fahner handled the plow and scraper. A. E. Keith supplied a team and scraper. D. W. Parcells supplied a team and democrat. Phil St. Pierre made the targets.

Chauvin W. I. Notes

Monday afternoon the W.I. had the unexpected pleasure of a short, inspiring talk from Mrs. Rogers of Fort Saskatchewan, Provincial Secretary of the organization, who was spending the week end with Mrs. D. W. Parcells.

Mrs. Rogers briefly traced the history of the Institute, from its modest inception, thirty years ago in Old Ontario, when it took three years to

Merton M.D.

Council Meeting

Minutes of Council meeting of Merton M.D. held in Winona School house on Saturday, June 4th at 2 p.m. Present the Reeve and all the Councillors.

The minutes of previous meeting were read and passed on Coun. Reynolds motion.

The Reeve reported on his interview with Dr. Earrett.

Clr. Reynolds moved that Dr. Earrett's account for services be paid. carried.

A letter was read from Mr. F. Taylor in connection with a proposed lease of Right of Way through N.E. 18-47-3-4

Coun. Wilson moved that Mr. Taylor be paid the sum of \$25.00 as compensation in full for lease of Right of Way through N.E. 18-47-3-4 for a period of two years. This amount to include all work necessary to make road passable. Carried.

On the motion of Coun. Wilson, the meeting was then thrown open for discussion by Ratepayers who were present.

Mr. Elmer Clay brought up the question of a motion passed in Council on January 8th in connection with the U.F.W.A. Winona Local's request that six waiting days be allowed Maternity patients from Merton

(Continued on back page)

Chauvin Agricultural Directors Meeting

The Directors of the Chauvin Agricultural Society held a meeting in A. E. Keith's office Saturday, June 4th. President N. Strachan in the chair.

Moved E. A. Pitman—Dr. Folkins that minutes be adopted as read. Carried.

Dance Committee—Report of Mr. Keith:

wring the meagre grant of \$2.00 from a doubting and reluctant government to its present enrollment of 100,000 members.

She impressed in each individual the necessity of cheerfulness, optimism and loyalty to the organization; pointing out that one disgruntled member, constantly "on the job" (in current phrase) could wreck the Society.

Of those of us who are novices in Institute work and rather hazy as to its aims and its value, the story of the plucky little society thirty-eight miles from a railroad was an enlightenment.

This society of twenty members in a district where there has been planting but no reaping; a seed time but not a harvest, met for two hours ev-

(Continued on next page)

Housing Of Poultry

Not all who keep chickens either in town or country know how to secure the best results from their flocks. For lack of knowledge the chick often develops into spindle-legged, small-bodied, poor laying creatures. And yet any amount of instructive literature is published and can be had without cost by applying to the Publications branch of the Department of Agriculture at Ottawa. Housing shares in importance with feeding, if the best results are to be gained. In this connection it is interesting to observe that a revised edition of the bulletin on Poultry House Construction by F. C. Elford, Dominion Poultry Husbandman, has just been issued by the Department of Agriculture at Ottawa, from almost every class of the community. The bulletin, which is based on trials of various kinds of poultry houses in different parts of Canada, treats of the subject clearly and comprehensively. Plans and building instructions, with

illustrations and diagrams, are so given as to enable anyone to erect such a poultry house as may be desired.

The Value Of The Newspaper**Contains More Interesting Reading Than Average Book of Fiction**

Mr. Robert Blatchford, of England, has been counting up how many words one gets in a newspaper for a penny, and how many for the same sum in an average novel. He makes it 63,000 in the paper, and 757 in the novel. You get only one story in the novel, where in the paper you get scores of interesting articles or paragraphs about real events and living men and women. You also get literary articles by well known writers or public men on topical subjects. Moreover, any of the articles and sketches in the newspaper are better written than in any fiction except the best. Mr. Blatchford expresses surprise that people who will give seven

and sixpence for a novel will grumble at threepence for a first-rate newspaper.

Burbank Has Evolved New Wheat Which Is Very Early

After experiments extending over eleven years, Luther Burbank, the great California horticulturist, is said to have evolved a "quality" wheat, containing over fourteen per cent. gluten, an astonishing improvement in this grain. The new type of wheat has a very large white, flinty kernel and produces a very white flour.

The new wheat according to Mr. Burbank is an exceedingly early wheat, being the earliest of some four or five hundred varieties which he has been growing.

It has been carefully tested alongside sixty-eight of the best wheats in the world, and has exceeded them all in yield, and uniformity, the straw in yield, uniformity and all other details strong, being four feet on good ordinary valley soil, without special cultivation, care or fertilizing, produced at the rate of 49.88 bushels per acre, every plant and every kernel being uniform, as this wheat was originally grown from one kernel.

Canada's Exports Are Exceeding Those Of Year Preceding War

That France is Canada's chief customer among European continental nations at present, and that Canada's exports to Germany during the past fiscal year exceeded those of the pre-war year, 1913-14, are two points brought out in the weekly bulletin of the department of trade and commerce to be issued on June 13. Exports last year showed an increase also to Sweden, Norway, Turkey, and Portugal, exports to Italy, mostly wheat, rose to \$57,750,000 from \$17,000,000 in the previous year.

Weather conditions have been ideal in the prairie provinces during May, so that prospects for wheat are more favorable than at this period in any year since the prolific season of 1915. The area estimated under wheat in prairie provinces is 17,418,900 acres, barley 1,772,000 acres, rye 541,000 acres.

THE LEGAL BERRY BOX

It may be interesting to purchasers of berries to know that the legal quart box should be 5½ by 5 inches at the top, 4 by 5 inches at the bottom, and 3 inches deep. The short box, which is not to be allowed this year is 4¾ inches at the top, 3½ by 3½ inches at the bottom, and 2½ inches deep. This berry box question will cause some contention and perhaps some prosecutions.

Are you going to the big bucking contest? You bet I am.

NOTICE TO CREDITORS AND CLAIMANTS

In the Estates of William Ernest Donaldson late of Ribstone in the Province of Alberta, Farmer, Deceased.

Notice is hereby given that all persons having claims upon the estate of the above named WILLIAM ERNEST DONALDSON who died on the 8th day of January 1920 are required to file with the undersigned solicitors for the Executrix, Edith May Donaldson by the first day of August 1921 a full statement duly verified of their claims and of any securities held by them and that after that date the executrix will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

Dated this 27th day of May 1921.

FIELDHOUSE & HUNTER
Solicitors for the Executrix
Wainwright, Alberta.

Fruit Growing On The Prairies

To the new arrivals from Ontario and England it may at first seem a disappointment to find that the familiar sight of orchards does not greet them in the prairie provinces as it did in their own localities, but it must not be said that the prairies are fruitless or incapable of producing fruit. Great advances have been made in the west in the cultivation of the various kinds of small fruits and there is hope that considerable headway will be made in the future.

In place of the apple and other orchards of the East we have our small fruit plantations and also plum orchards. There are certain varieties of small fruits which are quite hardy in the prairie provinces, and for those persons who are willing to give such bush fruits the necessary attention—which does not call for much labor—there will be, on the average, a worthwhile supply of fruit for cooking and also preserving.

The growing of bush fruits should not be treated as in indulgence in a luxury, as the incorporation of fruit in the farm diet is a necessity from the point of view of health. In the case of the children's school lunch the addition of a little home-grown fruit is sure to be much appreciated.

By having the fruit garden convenient to the house one can gather the fruit to advantage and fresh fruit may be gathered at any time in the season may be gathered at any time when the season is on. This means a basketful may be gathered for a pie when it otherwise would not have been picked from the house if the E7E27T R82) is ed if the fruit patch were at a distance from the house. This accessibility is also an advantage to the whole family as the family may be rounded up from time to time at odd periods of the day for a short spell of picking, whereas a distant patch is visited when convenient time is found and a hasty job is made so as to pick as much as possible while all hands are available.

The kinds of fruit that have been found to do well in the West are black, red, and white currants, raspberries, gooseberries, and strawberries. The native plum is quite hardy and should be established widely in the West as it produces fine fruit and requires very little labor.

It is said that currant, gooseberry and raspberry will grow almost to the Arctic Circle, therefore it is evident that they are a safe undertaking for the prairie farmer.

Currants are usually propagated by means of cuttings; these cuttings root very readily and one season's growth will give very good plants. The autumn is the best time to make the cuttings as the bushes grow very early in the spring and the cuttings cannot be rooted successfully once the buds have swollen.

Wood of one season's growth is used and the pieces should be put in a cool moist cellar for storage. These pieces should be about ten inches in length cut square below the last bud. Do not leave the cuttings laying about after taking them from the bushes as they should be buried in sand and prevented from drying out.

In order to get the best results, currants should be planted in rich soil which should be cool and supplying plenty of moisture. As the currant roots near the surface, if the soil is hot and dry the crop will suffer accordingly. Should the soil be lacking in richness, a good dressing of manure, well worked in, will be of much benefit. A northern exposure will ensure a better chance for the crops in a dry time.

In planting, we see that plenty of space is provided as they will do better thus and are easier picked than when crowded. Six feet by five feet is considered a good distance to arrange the plants. Tramp the soil well about them when planting to prevent drying out. Do not plant too shallow, and after planting, the soil should be levelled and the surface loosened for the retention of moisture.

Cultivate soon after planting and keep the soil loose during the summer

As many of the roots will be near the surface when the plants are more mature the cultivation should then be shallow. If the soil is kept rich, the currants will prove to be heavy yielders.

In pruning, it should be borne in mind that the black and red currants bear most of their fruit on wood of different ages and consequently pruning differs. The black currant bears most of its fruit on wood of previous season's growth, hence it is important to have a good supply of one-year healthy wood. In pruning red and white currants, look to the supply of two and three-year wood.

About six stems with side branches

AUCTION SALE OF FARM NEAR CHAUVIN

For sale by public auction, at the office of George Reynolds, Auctioneer, Chauvin, Alta., on Saturday 18th June at 2 p.m.

The North East quarter of section 32, township 44, range 1, West of the Fourth Meridian, containing 159 acres more or less, belonging to the estate of the late Nels Malen.

The above land will be sold, without reserve, to close an estate, subject to the reservations, limitations, and conditions contained in the original grant from the Crown and in the existing Certificate of Title, and to taxes for the current year.

The vendor is informed that the land is about 11½ miles north of Chauvin on the G.T.P. Railway, and that there are the following improvements on it: a two-room frame house, 14 x 22, with concrete foundation and brick chimney, valued at \$500, with telephone in house, and good well; 1½ miles of fencing with willow posts and two wires; and about 50 acres broken; that there are about 15 acres of pasture land, and all the rest is suitable for cultivation; and that there is a small lake at the N.W. corner suitable for watering cattle.

Terms of Payment: \$200.00 cash at time of sale, \$800.00 within 30 days thereafter, and the balance in twelve months from said date.

For further particulars apply to H. C. Boyd, Barrister, Edgerton, Alta. L. R. Larson, Oxbill, Alta., Administrator of the estate.

GEORGE REYNOLDS, Auctioneer, Chauvin, Alta.

distributed properly will supply a good crop of fruit. By pruning, sufficient opening can be made for the admission of light and sunshine.

The average yield of red currants is estimated at 150 bushels per acre, with the black currants somewhat less. Among the best varieties of currants are; Red, Red Dutch, Cumberland Red, Raby Castle; Black, Kerry, Saunders, Magnus, Eagle, Climax. White—White Grape, Large White, White Cherry, White Pearl.

Excellent jelly can be made from red currants and they may also be used for the purpose of making pies and jam. Red currants will remain in condition some time after ripening on the bushes and therefore do not have to be picked as promptly as the black.

The cultivation of gooseberries in this country is somewhat limited though the prospects for growing them generally—even in the far north districts—are very favorable. The fruit is very refreshing and makes excellent pies and jam. It is not so easy to propagate the gooseberry as the currant and the best result will usually be obtained by a process known as layering. To do this the bushes should be severally pruned in the fall or early spring and a strong growth of young shoots induced to grow. When these have made most of their growth the earth is heaped

up around and through the bush until only the tips of the young shoots are exposed. In the case of the to have rooted well by the autumn and the young plants may be detached

BUILDING GOOD ROADS

Every year the government of Alberta is making the lot of the farmer a happier one, not by paternal legislation, but by practical work, which reduces his labor and increases his conveniences at all times. When settlement was sparse and vehicular traffic comparatively circumscribed, the prairie rails afforded all that was necessary, but when settlement became thick and traffic great, the old trails soon became rutty, and at times, failed man's enterprise had to step in and this year alone \$1,000,000 are being expended in the province of Alberta in making good roads for the transportation of produce from farms to the towns.

Not only are the highways being put in decent shape, but bridges are spanning rivers and creeks, hills are being cut down and the grading is generally being conducted in such a manner as to afford ease to man and beast, thus economising both labor and time. All improvements occupy much time and with limited seasons for this work, too much must not be expected annually, but it may be relied upon that in due time the country will be provided with uniformly good roads and ample bridges for negotiating awkward streams, so that a maximum of travel and transportation may be effected in a minimum of time. Good roads are a national asset and no government today can afford to ignore their importance or the imperativeness of the obligation it owes our population to provide them.

Work is the greatest blessing that life holds; pension off an old man and he soon dies.

Chauvin Agricultural Directors Meeting

(Continued from front page)
was expected to give her report of the Fairs' Convention at the Institute meeting.

Moved E. A. Pitman—G. Tessier that we have Mrs. Armour's report next meeting. Carried.

Mr Pitman reports on U.F.A. discussion of excursion to Scott July 12.

Moved Mrs. Miller—Dr. Folkins we endorse the action of the U.F.A. regarding the visit to Scott.

Moved Dr. Folkins—H. Young that the Prize committee correct the Prize List by having the extra prizes printed and this leaf inserted in the Prize Lists. Carried.

Moved E. A. Pitman—Geo. Tessier that the prize list be revised early in the winter. Carried.

Moved Dr. Folkins—H. Young that Directors in Charge of cattle re-model the cattle stall at their discretion. carried.

Moved G. Tessier—Mrs. Miller that Mr. Pitman be a Committee to see Mr. Herbert about fixing the pump, cleaning and filling tank previous to Fair Day. Carried.

Moved G. Tessier—H. Young that 19th Dragoons have permission to use the grounds for drilling purposes. carried.

Secretary to obtain Lumber Bill from Col. Rodden.

Moved G. Tessier—A. E. Keith, that Secretary rent a safety Deposit Box at the Bank. Carried.

Moved E. A. Pitman—Mrs. Miller that President communicate with the Athletic Association to have ticket office put into proper condition. Carried.

Moved G. Tessier—Mrs. Sevigny that we mail prize lists. Carried.

Meeting adjourned to meet July 2.

Those present were: N. Strachan, G. Tessier, Mrs. Miller, Mrs. Sevigny A. E. Keith, E. A. Pitman, H. Young Dr. Folkins, G. Snell, Sr.,

Fram Grain Growers Association

(Continued from front page) as per the letter of the Marsden branch who asked for the co-operation of Fram G.G.A. in buying twine for this season's crop. The matter of the Picnic was then gone into, and it was decided to hold a picnic on the grounds of Mr. P. Wogberg; the date being fixed for July 12th. The Secretary was instructed to issue invitations to the members of the Manitou Lake and Marsden locals. A dance is to follow and Mr. S. Ulis kindly undertook to provide the floor. A committee was elected, and Messrs. Pritchard, A. Gabrielson and Wog-

berg chosen to act in this capacity together with the lady members of the Association. Councillor Jas. W. Coe was present and spoke on Municipal matters, and especially road work; and enlightened the members on many points, on which they themselves admitted ignorance. He answered many questions and was warmly thanked for his address. Before the meeting closed a light lunch was handed round by the 2 lady directors (Mrs. A. Gabrielson and Mrs. K. W. Coe) who kindly provided same which was much appreciated.

A meeting of the directors, and also the picnic committee is called for Saturday evening June 18th at the home of Mr. S. Ulis. It is hoped that all members will be present.

plowing and a good supply of manure are important. A hoed crop on the land the previous season will help considerably in making good growth. The suckering varieties of raspberries should be planted in rows eight feet apart and three feet apart in the row. Another good plan is to plant in hills five feet apart; each then may be cultivated each way. The plants of suckering varieties are set four or five inches deep. As in the cultivation of currants, frequent cultivation is necessary. During cultivation the suckers should be hoed out.

In pruning, the object should be to cut out superfluous canes and leave about six of the strongest for fruiting. It is advisable in the prairie provinces to bend the canes over just before winter and cover with soil for protection. In Canada the yield of raspberries has gone as high as 200 bushels per acre and over. Some of the best varieties of raspberries are: Sunbeam, Ironclad, Herbert, Miller and Turner. The Herbert, Ironclad and Turner produce the largest fruit and the quality is very good. The Caroline may also be mentioned here. It produces a yellow berry which is small but of good flavor. The Sunbeam is small and

Fruit Growing On The Prairies

and planted in nursery rows the following spring to be grown there for a season. English varieties take two years to root as a rule and the bush must be left in a partially covered state for that length of time. By treating the American varieties in the same way as for propagating currants, viz., by cuttings, fair degree of success can be obtained. The cuttings should be about six inches or a little over and buried in soil over winter and set out in the nursery rows in the spring or fall with just one or two buds showing above ground.

A good supply of moisture is essential in the cultivation of the gooseberry. The soil should be cool and moist and sandy. Clay loam if it is well drained provides a good location for gooseberry culture. As is the case with the currant, great benefit will be derived from well rotted manure being worked into the soil for the purpose of supplying plant food. Planting cuttings or layers is recommended to be done in the fall as plants get an early start in the spring and as the leaves drop early in the autumn. The arrangement of the plantation should consist of rows six feet apart and four feet apart in the rows. The cultivation should be thorough though shallow, as the gooseberry roots near the surface.

In pruning it is usually a good plan to have no wood older than three years. The object should be to have an open head to the bush with a few good shoots regularly distributed. Fruit is grown on year-old wood and from spurs from older wood. Branches that are older than three years should be cut away to make way for younger wood. A plantation of gooseberries will keep up its usefulness for a good many years if the upkeep of the soil is properly attended to by the application of well rotted barnyard manure and the pruning is done judiciously.

In regard to yield, if the leaves are protected from pests a good crop may be expected as the American gooseberry is a good yielder. This fruit has averaged in five years in the East over 300 bushels per acre. Two of the best varieties are Houghton and Downing. The Houghton is more prolific and harder, while the Downing bears a fruit of very large size. It is best to cover the bushes over winter with a mulch as strawy manure, to prevent the killing back of the tender shoots.

The raspberry is very popular in Canada and is eaten in various forms such as raw with cream and sugar, as stewed fruit, in pies, and as a preserve. This fruit is practically scattered all over Canada in its native state and extends to districts within the Arctic Circle.

The red raspberry requires for best results a deep, rich, loamy soil which should be cool and moist. The canes which grow one year bear fruit the next and then die and new ones take their place. The best plants for a new plantation are the suckers which grow around the old plants in the spring. Plants should be cut back to within six or eight inches of the ground at the time of transplanting.

The soil should be well prepared before the planting takes place. Deep

sour but is a good yielder. It resembles the wild raspberry.

Market Competition Best Butter Only For

Supervision and Education

The scheme which is in vogue in the United States regarding supervision and education might well be emulated here. There, each state is divided up into counties in charge of a County Agent, who is paid by the county, his function being to oversee farming operations generally, and to give advice, where advice is needed. This agent is a scientist and also a best for the farmer, and he is paid to show him the best methods in vogue.

This system has met with such success that the Federal government is also going to work similar lines: the states have been divided into sections and in each of these a federal officer is on hand to advise the agriculturists, in addition to the county agent.

The agents travel continuously from farm to farm; cows are tested, and the unprofitable animals are weeded out while special advice is given in regard to the separation of cream and so forth.

In Australia similar conditions prevail, but in addition to advice, there is a rigid inspection of all dairy plants; cow yards must be swept clean at least once a week, all the cow barns must have cement floors and be thoroughly whitewashed, and the cream room and separator room must be a certain distance from the cow sheds.

Heavy fines are imposed for any breaches of the dairying act. Although there was at first considerable objection to the scheme. Australians have learned that it pays to be scientific and cleanly, and in the

southern continent at the present time, the dairy farmers compose the most prosperous class in the community, while Australian butter has a reputation which is hard to excel.

Science of Production

New Zealand is even more rigid than Australia in all that pertains to the science of butter production, and Albertans have good cause to know what this means. The British Columbia market is ours by right and title, if we but exert ourselves to hold it, but it cannot be retained with shipments of second and third class butter.

The issue is a very live and real one, and unless some effort is made to improve the quality of cream this coming summer no doubt whatever exists but that Alberta will have a quantity of butter on hand cannot be sold at any price.

The manufacturers and the real farmers are thoroughly alive to the situation and it should be the duty of every good Albertan to hammer home the slogan of "Poor cream means

The Growing Of New Forests

Citizens who read of the inroads of fire and the amount of cutting in Canadian forests frequently inquire anxiously of foresters what the different government forestry departments are doing in the way of planting trees. This anxiety is a very healthy sign and shows the progress Canada is making in forest conservation, but at the present time the question is not so important as this one:

"What are we doing to protect our forests?" This is not begging the question, for a forest is not a dead thing like a quarry or a mine but a

living thing more akin to a flock of sheep. If the flock is protected it grows new crops of trees on the burned over lands and replaces the trees cut for lumber.

Lumbermen take the mature trees but, fire takes mature trees, saplings, seedlings, and even the soil in which the trees grow. In a country with such great areas of forest land and such a climate as Canada, nature will grow new forests rapidly if only given a chance. But even if it were not so and planting were an absolute necessity to preserve Canadian forests what would be the good of planting if our fire protection were so poor that we allowed these seedlings to be burned up a year after they were planted?

Planting in both Europe and Canada is necessary in certain cases, but it cannot be undertaken until there is

reasonable assurance (as there is in the settled districts of the provinces) that these plantings will be protected from fire. The first duty of Canadians is to protect their mature timber and their young forests from fire.

A FARM ACCOUNTING SYSTEM THAT IS A GOOD THING FOR ANY FARMER

Duns and Bradstreets, the greatest mercantile agencies, both say that: "Carelessness is the greatest business criminal"—that 60 per cent of failures are due to this cause.

As a class, farmers are apt to be financially careless, very largely because there has hitherto been no complete method—so simple, the ordinary man could follow it—provided for keeping accurate account of their operations.

Scott's SIMPLIFIED Accounting System for Farmers meets this need. Kits forms providing for a monthly showing in every branch of farm work for Five Years—including a detailed inventory which will be accepted by any bank.

Following its simple principles, any farmer can keep accurate accounts—have a perfect check on every branch of farm work—it is a perfect book-keeping system—compiled by a banking expert especially for farmers.

The only system which is given a Systematized Pocket Note Book and simplifies your income tax return.

Ask to see the endorsement of the system by government officials and farmers' organizations officials, and leading financial men.

Copies can be obtained from the Chauvin Pharmacy

time of sale and the remainder of the purchase money to be paid into Court within sixty days without interest, or in the alternative a deposit of ten per cent. as aforesaid, and a mortgage may be granted for \$800.00 for 5 years at 8 per cent. per annum and the balance of the purchase price to be paid into Court within sixty days without interest.

In other respects the terms and conditions of sale will be the standing conditions of the Supreme Court as approved by the Master in Chambers.

For further particulars apply to Messrs. Emery, Newell, Ford & Lindsay Barristers, Edmonton, Alberta.

Dated at Edmonton in the Province of Alberta, this 18th day of May, 1921.

R. P. WALLACE,
Clerk of the Supreme Court

Many a man enters the stock market as a bull and comes out bare.

Merton M.D.
Council Meeting

to Lloydminster Hospital. After discussion:-
Counc. Reynold moved that the motion passed in Council on January 8th "That the communication of the U. F.W.A. Winona Local be forwarded to the Hospital Board with this Council's recommendation" be affirmed by this Council. Carried.

Mr. B. Brassington and T. Killen attended the meeting and stated that the road diversion through N½ 22-47-2-4 was not necessary; and that they were not desirous of such diversion going through their land.

Coun. Eggen moved that all previous motions in connection with the proposed diversion through N½ 22-47-2-4 be rescinded. Carried.

Mr. E. J. Heard attended the meet- opened up to allow settlers on Sec. 24-45-3 to get out from their land.

Couns. Sharf and Eggen were appointed a committee to look over this matter of a road out of S ec. 24-45-3.

Mr. J. T. Campbell brought up to Council the matter of a horse being illegally impounded; and for which he had paid pound fees under protest.

Secretary was instructed to take the matter up with Mr. J. T. Moffatt the Poundkeeper.

Secretary was instructed to advise Mr. Henderson with reference to animals running on his crop; contrary to the by-law of the district.

Counc. McKenzie was appointed a committee to interview Mr. T. McLaughlin with regard to compensation for appropriation of land for Right of Way through S.E. 36-46-2-4.

Counc. Eggen moved that Secretary write to Ribstone M.D. asking if it was their intention to open up the road between Section 31 and 32-44-2. Carried.

Council fixed the Weed Inspector's salary at \$5.00 per day for a period not exceeding 10 days. Each Councillor was empowered to appoint a Weed Inspector for his own Division; and advise Secretary in his appointment.

A letter from Counc. Ketcheson or Wellington M.D. asking for a grant on a road leading into Kitscoty was referred to Councillor Sharf for investigation.

A letter from J. Davis relative to a right of Way through his land N.W. 14-46-1 was referred to Counc. Reynolds.

A letter was read from the Western Canada Colonization Co. Coun. MacKenzie moved that this Council endorse the scheme proposed by the Western Colonization Co. Carried.

A letter was read from H. J. Mansfield relative to seed oats sold to T. Watt. Secretary was instructed to see Mr. Watt about this.

On the motion of Counc. Wilson the rate for current Municipal Taxes was struck at 8 mills.

The following schedule of wages for road work was adopted.

Man and team 70 cents per hour; Man and four horses \$1.00 per hour; Day labor 40c per hour; Foremans wages not to exceed \$6.00 per day.

The following appropriation for road work for each Division were passed in Council:

Division 1 \$475.00; Division 2 \$1020.00; Division 3 \$875.00; Division 4 \$800.00; Division 5 \$745.00; Division 6 \$1025.00

Counc. Eggen moved that all road work be applied on Taxes. Carried.

Arthur Clark was appointed Poundkeeper in Division 4 in place of Adam McDonald who was unable to act.

Accounts amounting to \$247.54 were submitted to Council and passed for payment on motion of Counc. Wilson.

Counc. Eggen moved that Reeve and Secretary-Treasurer be authorized to borrow the sum of \$2000.00 to meet current Municipal expenses. Carried.

Counc. Reynolds moved that meeting adjourn.

**Plowing Match
At Edgerton**

The first plowing match of the Edgerton agricultural society will be held on Friday June 17th, 1921; $\frac{1}{4}$ mile north of the town of Edgerton on the farm of Mr. Alf Challenger, commencing at 10 a.m.; Plowmen to be on the ground at 9 a.m.

Plowmen to bring their horse feed and stakes for striking out. Contestants must become members of the Society at a fee of \$1.00.
